The great room opens to an oversized eat-in kitchen. The kitchen features stainless steel appliances, above grade counters and cabinets, pantry and custom wider plank wood flooring. The 1st floor master bedroom is large with tray ceiling has a gigantic walk-in closet that's as big as some bedrooms and a built in fold out ironing board. The master bath features a double bowl sink and separate stand up shower, whirlpool type tub and private toilet. Upstairs you'll find three other large bedrooms one bedroom up here even has an enormous bonus room that is currently being used as an additional closet. Also up here another full bath and second heating/air unit to keep the utility bill down. The basement has been finished and is spectacular! The main room down here is set up as a media room, there's a 5th bedroom, another room for entertaining, a 6th room that can be used as an office or exercise room, another full bathroom with ceramic tile and there still 2 large rooms for storage. Off the kitchen there's a covered deck and a larger than normal lot complete this home.
